

change the **Globe**

A bright new era in lighting for Australia

What's in it for me?

The right choice will save you money

- Together we spend around \$900 million each year on lighting our homes
- Simply by switching to energy efficient light globes you can cut your lighting costs by up to 80%
- By choosing an energy efficient light globe, each of us can **change** the **Globe**™ today

=

Cut carbon
emissions

+

Cut power
bills
